

# CNT 4714 – Programming Assignment #1 – Spring 2017

**Title:** “Program Assignment 1: Event-Driven Programming”

**Points:** 100 points

**Due Date:** **Sunday January 29, 2017 by 11:59 pm (WebCourses time)**

**Objectives:** To practice event-driven programming using Java-based GUIs. To refresh your basic Java skills.

**Description:** Develop a Java program that creates a standalone GUI application (not an applet) that simulates an e-store which allows the user to add items (books) to a shopping cart and once all items are included, total all costs (including tax), produces an invoice, and appends a transaction log file.

Your program development must include the following steps:

1. Create a main GUI containing the following components:
  - a. An area that allows the user to input data into the application along with the descriptive text that describes each input area.
  - b. A total of six buttons as shown below with functionality as described below.
  - c. As illustrated below, the various buttons on the interface are only accessible at certain points during a user’s interaction with the e-store.
2. An input file named “`inventory.txt`”. This is a comma separated file which contains the data that will be read by the application when the user makes a selection. A sample file is provided for you on WebCourses.
3. An output file (append only) named “`transactions.txt`” must be created that uniquely logs each user transaction with the e-store. The unique transaction id will be generated as a permutation of the date/time string.

## Restrictions:

Your source file shall begin with comments containing the following information:

```
/* Name: <your name goes here>
   Course: CNT 4714 – Spring 2017
   Assignment title: Program 1 – Event-driven Programming
   Date: Sunday January 29, 2017
*/
```

**Input Specification:** The file “`inventory.txt`” as described above (see example below as well).

**Output Specification:** Output is to appear in the specified components of the GUI and various message boxes that appear, plus the contents of the “`transactions.txt`” log file that will be generated.

## Deliverables:

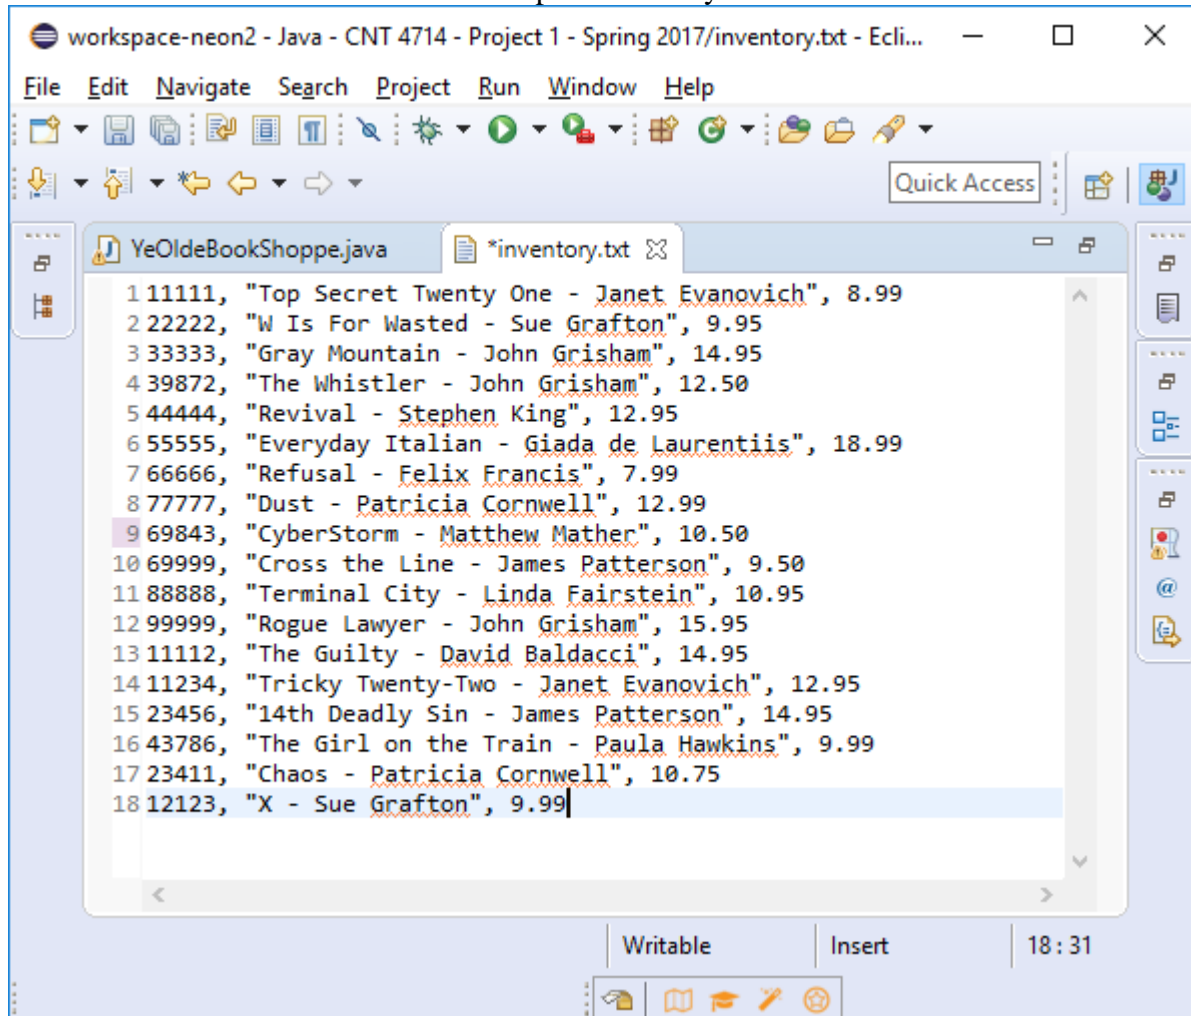

- (1) Submit a working copy of your source code (all .java files) via WebCourses no later than 11:59pm Sunday January 29, 2017.

- (2) Include a file that contains screen shots, similar to those illustrated below, that shows your application in action as a user interacts with your e-store to purchase books.
- (3) Include a screen shot of your "transactions.txt" file showing at least the last few transactions (similar to the one shown on the last page of this document).

### Additional Information:

Shown below are example screen shots of the GUI to help illustrate how your application is to operate.

1. Screen shot of the contents of an example "inventory.txt" file.

```
1 11111, "Top Secret Twenty One - Janet Evanovich", 8.99
2 22222, "W Is For Wasted - Sue Grafton", 9.95
3 33333, "Gray Mountain - John Grisham", 14.95
4 39872, "The Whistler - John Grisham", 12.50
5 44444, "Revival - Stephen King", 12.95
6 55555, "Everyday Italian - Giada de Laurentiis", 18.99
7 66666, "Refusal - Felix Francis", 7.99
8 77777, "Dust - Patricia Cornwell", 12.99
9 69843, "CyberStorm - Matthew Mather", 10.50
10 69999, "Cross the Line - James Patterson", 9.50
11 88888, "Terminal City - Linda Fairstein", 10.95
12 99999, "Rogue Lawyer - John Grisham", 15.95
13 11112, "The Guilty - David Baldacci", 14.95
14 11234, "Tricky Twenty-Two - Janet Evanovich", 12.95
15 23456, "14th Deadly Sin - James Patterson", 14.95
16 43786, "The Girl on the Train - Paula Hawkins", 9.99
17 23411, "Chaos - Patricia Cornwell", 10.75
18 12123, "X - Sue Grafton", 9.99
```

## 2. Initial GUI:

The initial GUI for 'Ye Olde Book Shoppe' features a green background with white text and a blue button bar at the bottom. The input fields are currently empty.

**Input Fields:**

- Enter number of items in this order:
- Enter Book ID for Item #1:
- Enter quantity for Item #1:
- Item #1 info:
- Order subtotal for 0 item(s):

**Buttons:**

- Process Item #1
- Confirm Item #1
- View Order
- Finish Order
- New Order
- Exit

**Callouts:**

- Process Item #1:** Allows for processing an item once it is selected.
- Confirm Item #1:** Confirms that the item is correct.
- View Order:** View the order so far.
- Finish Order:** Note that these buttons are not initially "active".
- New Order:** Clears order and starts over.
- Exit:** Quit!
- Finish Order:** Completes an order – generates invoice and adds to transaction file.

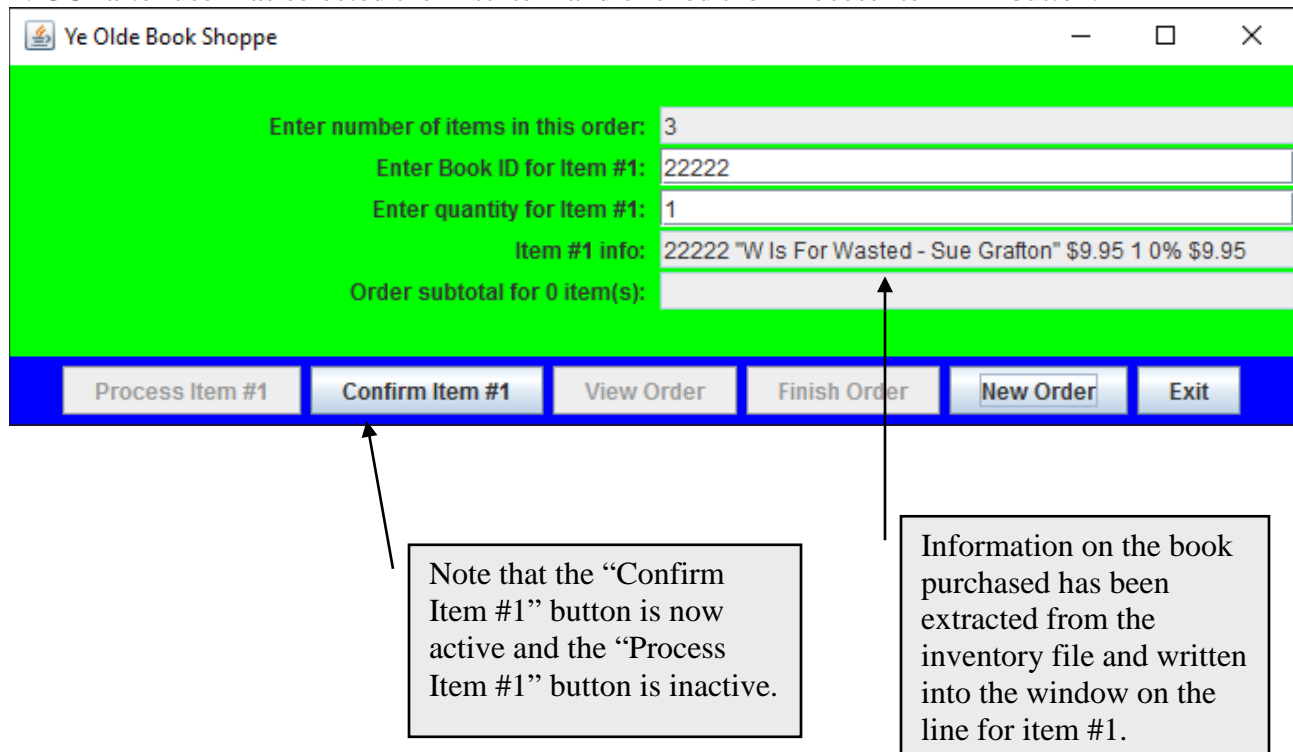

## 3. GUI after user specifies total number of items in the order and makes a selection for item #1.

The GUI after user input shows the following values in the input fields:

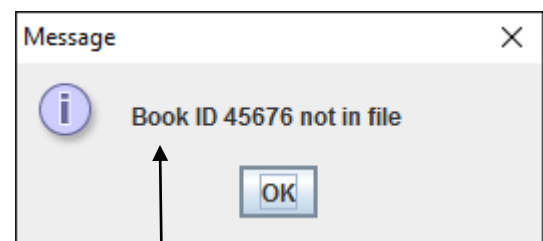

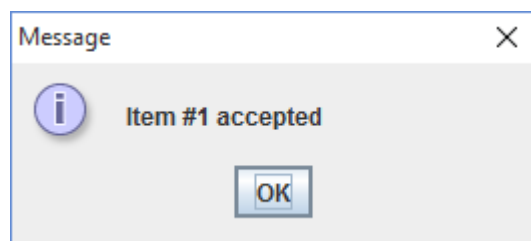

- Enter number of items in this order: 3
- Enter Book ID for Item #1: 22222
- Enter quantity for Item #1: 1
- Item #1 info:
- Order subtotal for 0 item(s):

The buttons remain the same as in the initial GUI.

4. GUI after user has selected the first item and clicked the “Process Item #1” button.

5. When the user clicks on the “Confirm Item #1” button, a confirmation information message appears on the screen.

User entered an incorrect book ID. This message would be displayed when user pressed the Process Item button.

6. The main GUI after the user has confirmed the first item.

Discount is  
 1-4 = 0%  
 5-9 = 10%  
 10-14 = 15%  
 >=15 = 20%

Note that the button changes number.

Note that the text areas for entering the second item information are cleared and ready for input.

Subtotal should reflect current total of all confirmed items.

Information for previous item remains on display.

Ye Olde Book Shoppe

Enter number of items in this order: 3

Enter Book ID for Item #2:

Enter quantity for Item #2:

Item #1 info: 22222 "W Is For Wasted - Sue Grafton" \$9.95 1 0% \$9.95

Order subtotal for 1 item(s): \$9.95

Process Item #2 Confirm Item #2 View Order Finish Order New Order Exit

7. User enters next item in the order.

Ye Olde Book Shoppe

Enter number of items in this order: 3

Enter Book ID for Item #2: 99999

Enter quantity for Item #2: 2

Item #2 info: 99999 "Rogue Lawyer - John Grisham" \$15.95 2 0% \$31.90

Order subtotal for 1 item(s): \$9.95

Process Item #2 Confirm Item #2 View Order Finish Order New Order Exit

8. The GUI after the user has entered the information for all the items and confirmed the last item.

Ye Olde Book Shoppe

Number of items in this order: 3

Item #3 info: 11234 "Tricky Twenty-Two - Janet Evanovich" \$12.95 1 0% \$12.95

Order subtotal for 3 item(s): \$54.80

Process Item Confirm Item View Order Finish Order New Order Exit

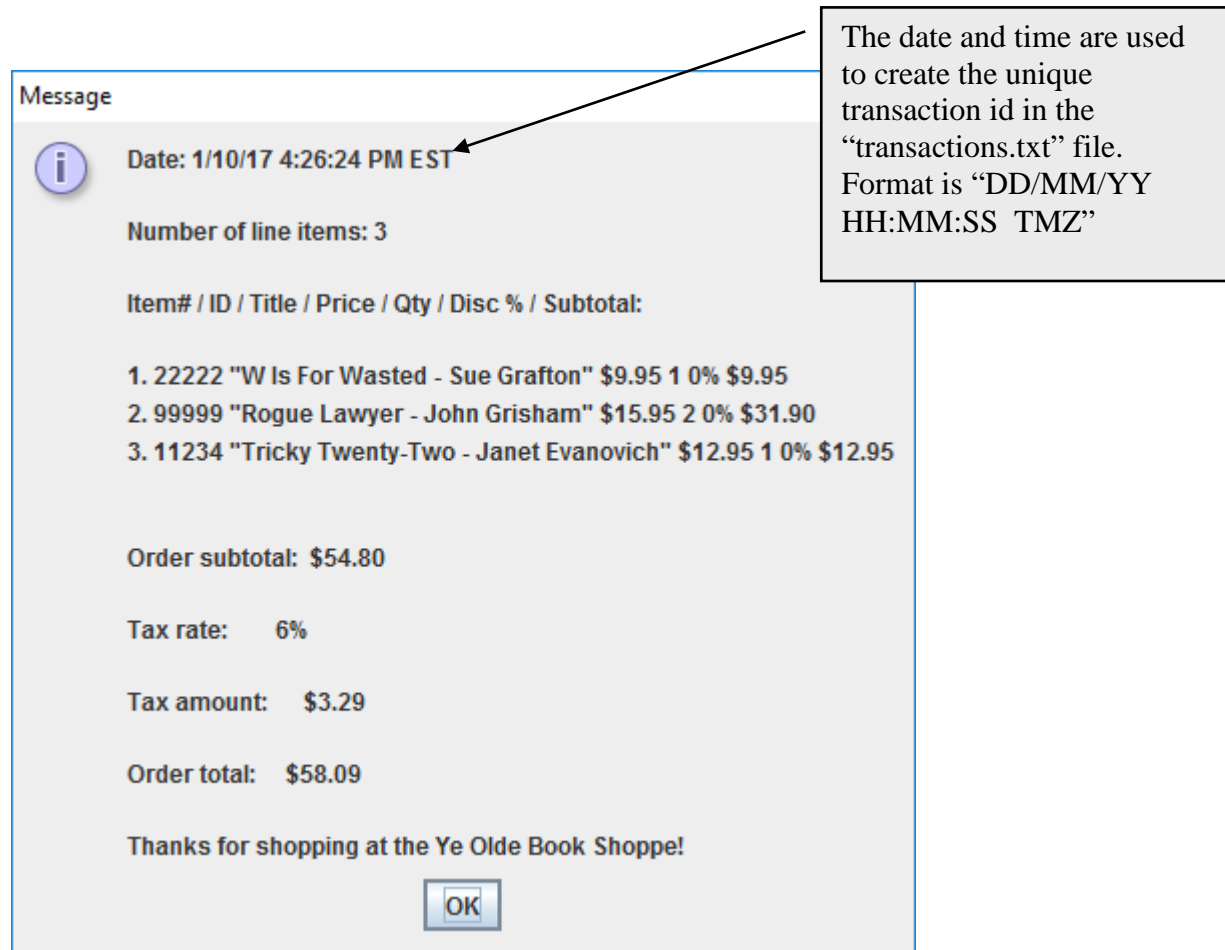

9. When the user clicks the “View Order” button, the following message box should appear.

Message

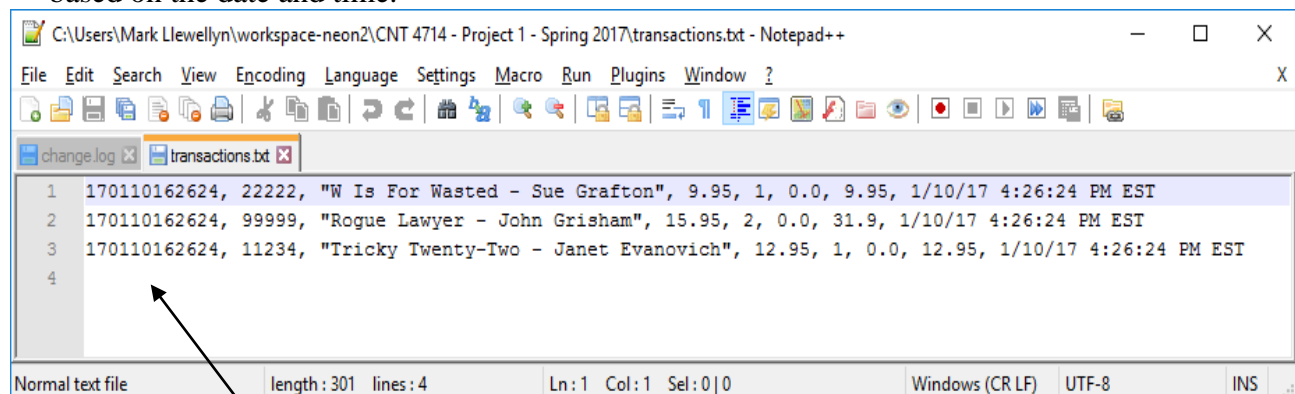

1. 22222 "W Is For Wasted - Sue Grafton" \$9.95 1 0% \$9.95  
2. 99999 "Rogue Lawyer - John Grisham" \$15.95 2 0% \$31.90  
3. 11234 "Tricky Twenty-Two - Janet Evanovich" \$12.95 1 0% \$12.95

OK

10. When the user clicks the “Finish Order” button, the invoice message should be generated and displayed.

11. The transaction file after order shown above was finished. Note the unique transaction ids based on the date and time.

12. The transaction file after several orders have been completed. Note the unique transaction ids based on the date and time for every separate transaction.
